***ABSTRACT***

*This study aims to formulate a strategy for pastoral counseling services for people living with HIV/AIDS (PLWHA) at the Batamang Plus Foundation in Manado. This study used a qualitative approach with a strategic design method, implemented at the Batamang Plus Foundation in Manado in 2025. Data were obtained through observation, interviews, and documentation.*

*The analysis shows that people living with HIV/AIDS need pastoral counseling services that can provide emotional and spiritual support. The strategy used is based on a client-centered approach and is implemented in a safe, judgment-free environment. Based on these findings, it is recommended that the foundation provide holistic pastoral counseling services integrated into its work program to support the spiritual recovery of people living with HIV/AIDS.*
